Tech Data will finally have stock of Lenovo laptops as standard. Watch this space...

Changes to Google Cloud Connect

For the past few months Google have been working to improve the user experience of our partners on the GCC by revamping the [Chrome Enterprise Partner Portal](#).

Why have we done this?

Based on feedback from our partners and Googlers the goals of this revamp was to:

- Streamline navigation
- Update and retire out of date content
- Simplify and declutter pages to highlight relevant content

Look out in the next few weeks for an update on our partner trainings and credentialing path as well!
